Introduction

The Healthy Michigan Plan is a health care program through the Michigan Department of Community Health (MDCH).

Eligibility for this program will be determined using the Modified Adjusted Gross Income methodology. All other criteria for Modified Adjusted Gross Income eligibility must be met to be eligible for this program. The Healthy Michigan Plan covers people who are:

- Ages 19 to 64
- Not currently eligible for Medicaid
- Not in or qualified for Medicare
- Not pregnant when applying for the Healthy Michigan Plan
- Have income up to 133% of the Federal Poverty Level
- Are residents of the State of Michigan

Most people who have the Healthy Michigan Plan must enroll in a health plan. MICHIGAN ENROLLS will send you a letter about the health plan choices in your county.

This handbook tells how you get care and the services covered under the Healthy Michigan Plan. It also lists your rights and responsibilities under the Healthy Michigan Plan.

Getting Care

When you have health care coverage through the State of Michigan you will get a mihealth card (a plastic card with your name and ID number) and be assigned to a Department of Human Services specialist. You must show your mihealth card before you get services. Your provider will check to make sure you are covered through the Healthy Michigan Plan or other state health care programs at each visit. If you do not show your card, you may have to pay for the service. Always keep this card; you will need it if you qualify for other health care programs through the state. If you lose your card, call 1-800-642-3195.

Tell your provider and Department of Human Services specialist if you have other insurance or if your insurance changes. You can also call the Beneficiary Helpline at 1-800-642-3195 to report other insurance.

Family Planning Services

The Healthy Michigan Plan will cover some drugs and counseling services to help you stop smoking. If you are ready to quit, talk to your doctor.
Skilled Nursing Facility Care

In some cases, services provided in a Skilled Nursing Facility (such as a Nursing Home), may be a Healthy Michigan Plan benefit. Check with your provider if you have questions.

MI Health Account

The Healthy Michigan Plan has co-pays. Before enrolling in a health plan, you must pay your co-pays to the provider when you get care. When you are enrolled in a health plan, most co-pays will be made to the health plans through a special health care account called the MI Health Account. Copays will not be collected for the first 6 months after enrollment in a health plan, but will be paid to your health plan through your MI Health Account at a later time.

Contributions

The Healthy Michigan Plan requires those with annual incomes between 100% and 133% of the federal poverty level to contribute 2% of annual income for cost sharing purposes. You will get more information about your MI Health Account and contributions for cost sharing from your health plan. You can reduce your annual contribution and co-pays by participating with your health plan in healthy behavior activities which includes completing an annual health risk assessment and changing unhealthy activities. Cost sharing (including co-pays) cannot exceed 5% of your annual income.
